

The Romahome ---

The Romahome will accommodate up to three people in comfort*. Single berths on either side of the accommodation area allow the driver to stop and sleep while other members of the family can still cook, or sit and eat without disturbing him. Alternatively, the single berths can be formed into a large double bed within seconds by moving the two together.

**A child from carrycot age up to about six years old can be comfortably accommodated in the luton above the cab. If you should require a third full size berth, a bunk is available as an optional extra.*
